**Shipped:** 6 live web apps · Skills Ontario Web Dev Bronze · $60K+ raised for Durham's first Diwali drone show

## Education

**University of Waterloo & Wilfrid Laurier University** — Waterloo, ON
*BMath (Honours Mathematics) + BBA, Double Degree* — *Sep 2026 – Aug 2031*

## Experience

**Co-Founder, Deployment Lead & Full-Stack Developer** — Jul 2025 – Present
*myHighSchool.club* — *Remote*

- Co-founded a platform giving high school clubs and organizations a web presence, built with **React**, **TypeScript (TSX)**, and **Tailwind CSS**
- Architected the entire **backend** on **Supabase** with **SQL**, designing the database and server-side data layer
- Manage a team of developers and own **production deployments** and release management

**Chief Executive Officer** — Jul 2025 – Present
*Hindu Community Centre of Durham* — *Durham Region, ON*

- Raised **$60K+** to produce Durham Region's **first-ever Diwali drone show**; organized 5+ community events
- Built hccd.ca and rebuilt diwalifestivaldurham.ca into a custom **React + TypeScript** app, improving speed and features while cutting hosting costs

**Director & Web Developer** — May 2023 – Present
*Senior Buddies* — *Durham Region, ON*

- Run **20+ intergenerational events** connecting youth and seniors through community workshops and activities
- Built and maintain seniorbuddiesdurham.ca with **React**, **TypeScript**, **Vite**, and **shadcn/ui**, using **serverless** contact forms (**Netlify Functions**) and **CI/CD** from GitHub

**Mathematics & Robotics Tutor** — Jul 2024 – Apr 2025
*IQ Brainers Academy Inc.* — *Ajax, ON*

- Taught Ontario-curriculum math (Grades 4–10) and engineering (Grades 3–8), including **Arduino C**, series/parallel circuits, and solar power

## Projects

**Deep Orbit AI** | *TensorFlow.js, Machine Learning, Web Development* — Oct 2025

- Co-built a **browser-based exoplanet classifier** for the **NASA Space Apps Challenge 2025**, trained on NASA Kepler (KOI) and TESS (TOI) data; team model reached **99.7% accuracy**
- Led web development on a 4-person team and contributed to the backend and **machine learning** pipeline

**Nonprofit Websites: OFTAC & Elimu Bright Schools** | *React, TypeScript, Tailwind CSS, Netlify* 2025 – Present

- Designed, built, and deployed websites for two Uganda-based nonprofits, including a beekeeping initiative supporting refugee families

**VEX V5RC Robotics, Lead Programmer** | *Python, PID Control, Autonomous Systems* — Aug 2025 – May 2026

- Implemented **PID-controlled** autonomous routines for team 22108A, reaching playoffs at every competition in its rookie season
- Programmed a **Python** autonomous path for robot Eugene, winning 1st in Skills at Durham Regional, the school's first-ever VEX win

## Awards

**Bronze Medal (3rd in Ontario)**, Skills Ontario Provincials – Web Development — 2026
**1st Place, Robotics Skills**, Skills Ontario Durham Regional (VEX V5RC) — 2026
**3rd Place**, NASA Space Apps Challenge [Local Event Name] – Orrery Web App — 2024

## Technical Skills

**Languages**: TypeScript, JavaScript, Python, Java, SQL, PHP, HTML/CSS, Arduino C
**Frameworks & Libraries**: React, Tailwind CSS, shadcn/ui, Vite, TensorFlow, TensorFlow.js
**Backend & Tools**: Supabase, PostgreSQL, Git, GitHub, Netlify, Serverless Functions, CI/CD
**Concepts**: Full-Stack Development, Responsive Design, Machine Learning, PID Control
